

# Streamline Your Volunteer Background Checks

## Trusted Screening. Easier Onboarding.

Servant PC Resources and Sterling Volunteers have partnered to ensure you can quickly and efficiently screen your volunteers with high-quality, secure background checks. With our easy to use integration, you can increase your productivity, create a safer environment and focus on making a greater impact.

## The Sterling Volunteers Advantage

### Monthly Updates for Peace of Mind

Get free monthly updates on background checks for all your volunteer screening in the first year.

### Give Your Volunteers the Option to Pay

Save on your budget by allowing volunteers to pay for all or part of their screening – or ask for an optional contribution.

### Make Informed Decisions

Choose from a wide range of high-quality products and searches designed to fit your needs.

### Find Pre-Vetted Volunteers

Gain access to a community of volunteers who have already undergone a background check and can share it with you.

## How the Integration Works

**1** The volunteer completes the registration process or they can be pre-registered by the organization within Servant Keeper. Sterling Volunteers will then send them a link via email to submit their background check.

**2** Sterling Volunteers runs the background check (most are completed in less than 24 hrs.) and provides status updates to Servant Keeper

**3** Once the background check is completed the results can be reviewed from the Sterling Volunteers dashboard.
